- **What is the amount of grant funding I can receive?**

- Students who use low-emission transportation such as trains, cars, buses, etc., may be eligible for 'green travel support'.

Erasmus+ Inclusion Support and Additional Grant Support

- This financial support is available to help cover the costs of any special needs students may have during their participation in the program, such as medication, a medical chaperone, special educational materials, suitable accommodation, travel assistance, and more. If the students are found eligible for the Inclusion Support, they can submit their expenses related to this declaration at the end of their Erasmus+ mobility, and the corresponding Inclusion Support will be provided by our office.
- Participants who are eligible for grant support under the Erasmus+ program but have limited economic and social means, and who meet the specified conditions in the application call, have the option to receive Additional Grant Support. This support is provided in addition to the mobility grant that they are entitled to.
